

Dear Sirs, This is in regards to the LPFM stations taking priority over current FM translator services. On our local radio station, we listen to K-LOVE 91.1 FM. K-Love supports wholesome values and has a positive and encouraging impact on all Communities across America. It is the only 100% listener supported station we listen to. We are proud to say we support such a station. We know alot of people in our Community that listen to K-Love 91.1 FM.If it were to be replaced by an LPFM broadcaster our "beloved" K-Love could be replaced by other programming. Here is just a few ministries K-Love 91.1 FM partners with; Food For The Hungry,Lifeline Productions, Gospel Spots, James Dobson's Family Minute, Colorado Christian University. K-Love takes prayer seriously. Four times a day their staff gathers together for prayer. A person can go online or call K-Love and talk to one of the five pastors they have on staff full time. They help people with Addictive Behaviors, Family Issues, Comfort/Grief, Natural Distasters Salvation, Depression, Anxiety, Finances, Jobs, Praise reports, etc... Lives are being changed as a result!Please keep our FM Station FM, so we can continue to listen to a radio staion that plays Contemporary Christan Music 24/7 with out interruption. This is a Station that really cares about its listners. If it goes away how will we help people that need it? Thank You for your time. we hope to hear from you regarding this situation.
